RoyP, HDCP: upcoming M/G, members will be attached with tourney hdcaps. No current hdcap modifications. Roy began to talk about 'differentials' in accordance with the NCGA/USGA, and deemed no change needed...remaining board members confused about what Roy was carrying on about. Differentials, Slope equations, net diff. scoring, natural slope, etc. MDrown scores at PrezCup called into question-net 65,66. Triggers ALewis to pull out the USGA graph showing percentage possibilities of a golfer shooting actually shooting his handicap....once ok but consecutive days?...like one in 1200. Mr Delles led the confusion conversation. Puzzlement remained among board. Hdcap approved due to time limitation.

KMorgan, Website: Updated website- all current categories. Including Roy hdcap for m/g with tee time=1pmshotgun. Lunch at noon, club championship details once clarified.

LuisGarcia to be appointed to this position? Note to members regarding opening for possible interest?

Tourney review: PCup/Qualifier seemed to work, why not do more combo's like this? More 'T' score tourneys for posting. Good food value...who doesn't like tacos?

Mem/Guest Preview: increased tourney fees questioned. Possible spreadsheet showing expenses following each event. Bigger payouts for same/same. Noted: Adam's uses his winnings to supplement Pro/Pres and whatever championship tourneys that follow.
